LONG TERM GOALS (LTG)

- With the help of ICT devices in the classroom, student technical and self-learning skills will be increased.
- To support students who want to pursue higher education and do research at reputable colleges.
- Collaboration with other institutions in the state and in other states for knowledge sharing in research and other educational activities.
- To provide students with the required tools in classrooms and laboratories to promote deeper learning
- To provide more certificate courses to the students, it will help their employment.
- To provide comprehensive and all-encompassing education so that all stakeholders get the help and resources they require both on and off campus.
- The provision of research guidance, knowledge exchange, and infrastructure for faculty and student exchange through partnerships with national and international universities.

SHORT -TERM GOALS (STG)

- A student-centered teaching and learning process should be established and maintained.

- To host presentations and activities aimed at enhancing students' skills during seminars.
- In order to involve students in class activities and promote self-learning, a range of teaching tactics should be used, including discussion, question-and-answer sessions, explanation, etc.
- In order to improve their employability, libraries should be used to help students complete assignments, internships, and other tasks.
- Must review and promptly complete the institution's accreditation evaluation.
- Have regular meetings of the internal quality assurance cell to keep tabs on its pertinent activity, including student feedback, the teaching-learning process, the organisation of programmes with the help of other departments, etc.
- To deliver an annual quality assurance report on time.
- Offering free study materials, coaching, and mentoring for competitive examinations and further education, as well as organising career fairs on college campuses to link students with employment opportunities.
- To plan athletic competitions, games, and cultural events.
- Use of online portals for admissions, fee payment, scholarship issues, financial and service-related concerns, gathering feedback from students and stakeholders, handling of student complaints, etc.
